

Technifab TLN Series liquid nitrogen dewars are designed to safely and conveniently transport and store small volumes of liquid nitrogen.

Features

Superior Thermal Performance

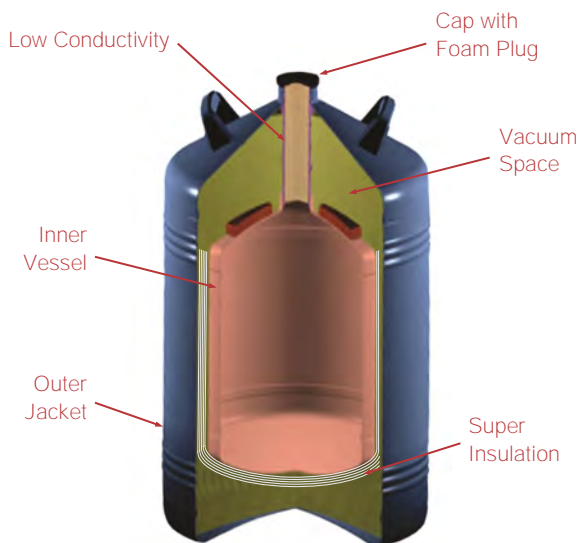

Technifab dewars combine an advanced vacuum design and super insulation to achieve superior thermal performance.

Robust and Durable

The high strength aluminum material, ribbed cylinder, durable neck-tube, and convenient handle provides you with a liquid nitrogen dewar that is lightweight, rugged and easy to use.

Quality Ensured

Each dewar is performance tested prior to shipment and fully warranted with serial number tracking documentation.

Benefits

Longer Hold Time

The superior thermal performance of Technifab dewars results in longer hold times, meaning less refilling and lower operating costs.

In Stock for Immediate Delivery

Made in our own facility, we can deliver dewars and accessories from stock.

Long Life

The durable construction and ease of use ensures a convenient and long lasting device to store and transport liquid nitrogen.

Convenient On-line Ordering

Technifab dewars and accessories may be conveniently ordered via the Internet at www.cryodewars.com or www.technifab.com.

TLN Series LN₂ Laboratory Dewars
